Democratic Decisions: Economic and Philosophic Perspectives on Collective Choice

LECTURERS

Dr. Dominik Klein

Prof. Dr. Stefan Napel

OBJECTIVE

How can rational individuals get to a rational collective choice if their preferences or information differ? To what extent does the adopted decision procedure matter? Can the procedure matter more than the preferences or information that feed into it? Are there philosophical grounds to prefer some choice rules over others? Practical and theoretical questions like these will be covered in this interdisciplinary block seminar. A mix of philosophical discussion, mathematical analysis and empirical case studies aims to improve participants' understanding of positive and normative problems of democratic decisions.

TARGET GROUP

Advanced Bachelor's students from:

- Philosophy & Economics
- Economics
- Internationale Wirtschaft & Entwicklung

ENROLMENT/REGISTRATION:

Enrollment on the e-learning platform will open after the preparatory meeting on February 8th. First check there which topics are marked as assigned already. Then send an *e-mail to both of us* in which you name one or more of the topics that have not yet been assigned to any other participant. Please double-check with us in case you don't hear back within 7 days of sending your mail.

SEMINAR INSTRUCTIONS

1. Time allowed: presentation of 45 min., comment of 5 min, discussion of 30 mins.
2. Presentations should be a concise and systematic overview of the topic in the form of a "teaching lecture".
3. Each presentation will be assigned to one other participant, who is to comment on / initiate the discussion of the contents of the presentation. Presenters are required to send their presentations to both instructors and the respective commenters *at least seven days* before the seminar session.
4. The literature given below is a *starting point* for your lecture. You are typically expected to find additional material yourself.
5. The order of presentations need not correspond to the numbering of topics found below. All participants shall be ready to give their presentation on the first seminar day.

SEMINAR PAPERS

Your *seminar paper* should be on a well-defined issue related to your presentation topic. *Start in time* so that you can meet the deadline despite exams, internships or further seminar commitments!

Please make sure when writing your paper that you maintain scholarly standards of presentation and citation. For guidance, please consult any of the research papers that can be found on either of our web sites. We recommend that you use the author-date (Harvard) referencing system.
